

AUSFÜHRUNGEN TÜR

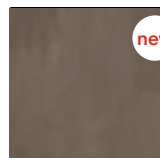

NL KUNSTSTOFF, LM KUNSTSTOFFLAMINAT, AM ARMOUR

1- Für eine korrekte Beurteilung von Farbe und Nuance müssen reale Musterstücke zu Hilfe genommen werden. Die Muster der Ausführungen Holz, lackiert und Marmor sind lediglich Näherungsangaben: alle bestellten Elemente aus diesen Materialien können im Vergleich zu den in Ihrem Besitz befindlichen Mustern natürliche und unvermeidliche Unterschiede in Bezug auf Farbe und Äderung aufweisen.

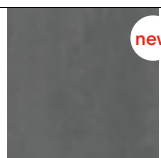

2- Unterschiedliche Materialien und Ausführungen, die miteinander kombiniert werden, können auch dann Abweichungen in der Nuance aufweisen, wenn sie dieselbe Farbe besitzen (z.B. Weiß).

3- Alle Materialien und die zugehörigen Oberflächenbehandlungen sind im Laufe der Zeit Variationen in Bezug auf Farben und Nuancen ausgesetzt, die auf die Lichteinwirkung, die natürliche Alterung und sonstige Faktoren am Einsatzort zurückzuführen sind: bei eventuellen Ergänzungen kann es daher bei der Kombination zu Abweichungen kommen, die akzeptiert werden müssen.
